

The documents required for applying article-94 of decree no. 770 of the year 2005 regarding the Visual Inspection

- 1) The application for entry of the producing company in the Visual Inspection lists submitted by the commercial agent of producer or the representative thereof or the importer and indicating the trademarks and items produced and their production locations at different countries, as per form no. 07-04 (3rd page)
- 2) The documents denoting that the producer has a quality control system applicable to the items produced thereby or those produced under a license therefrom. These documents shall be submitted together with the registration application and shall consist of the following:
 - The quality certificate obtained by the producer owning the trademark (or brand).
 - A letter, as per form no. 07-05 (4th page) by the producer holding the quality certificate, which determines the items required to be registered provided they shall be in conformity with the quality certificate obtained thereby. This letter shall denote that such producer: i) is the trademark owner and produces the subject item under his supervision and responsibility at the factories thereof in each one of the countries producing this item with the same trademark or brand and under the same standard specifications, ii) owns distribution centers, if any, in the following countries (*along with mentioning the names and addresses of those centers*), and iii) carries out production processes pursuant to one of the standard specifications approved by the Egyptian Organization for Standardization, as specified in the letter issued by the producing factory, and taking into account that the approved standard specifications are as follows:
 - Compulsory/ non-compulsory Egyptian standard specifications.
 - International standard specifications: ISO – JASO – AFNOR – ANSI – API – SAE DIN – IEC – EN – BSI – JIS – ASTM.
