WEST MEDITERRANEAN EXPORTERS ASSOCIATION GENERAL SECRETARIAT

In Turkey, there are 61 exporter unions functioning through 13 General Secretariats. Each of these General Secretariats offers service in 26 different export sectors. The members of the Unions are exporters.

Antalya Exporters Union General Secretariat was founded in 1968 and it became a 'regional union' as of 2011. It offers services to its exporter members functioning in 25 different sectors such as fresh fruits and vegetables, ferrous and non-ferrous metals, textile, soil industry products, chemistry and mining products.

Our Union is responsible for cities of **ANTALYA**, **ISPARTA** and **BURDUR**. The exporter companies which are registered and functioning in our region **are supposed to join in West Mediterranean Exporters' Union**.

West Mediterranean Exporters Association's main functions are:

- Organizing seminars, meetings and symposiums for its members,
- Organizing buying mission programs and trade mission programs,
- Organizing Turkish national participation to exhibitions, participating in international exhibitions and carrying out promotional activities.

ANA MEYVE TARIM TİC. LTD.ŞTİ.

Ana Meyve Fresh Fruits, engaged with agricultural sector since 1990s, is headquartered in the Boğazova Valley of Eğirdir- the most fruitful area of Turkey's southwestern Isparta Province. As a leading fresh fruit grower, packer and exporter of the region with great passion, we offer six different fruits, which are cherry, black fig, table grape, pomegranate, apple and quince to our customers. In addition to our own productions, we also procure fruits from certified and experienced growers under the supervision of our QC teams across Turkey.

Our company owns her modern storing, grading and packing facilities located in different provinces of Turkey, so that we are easily able to meet our partners' every needs. While the cherry, apple, pomegranate and quince facilities take place in Isparta, table grape facility is situated in Manisa and black fig facility is situated in Bursa Province. Our clients range from premium retailers&wholesalers to food companies. Today we export more than 25 countries shipping by truck, sea and air globally.

As a family-operated company with strong business values and young-dynamic team, we are committed to carry out good business practices with high quality products. International production and management standards are our core guidance in our business, and in this respect we hold ISO-9001/22000, GLOBALGAP, GLOBALGAP-GRASP, BRC and SMETA certifications.

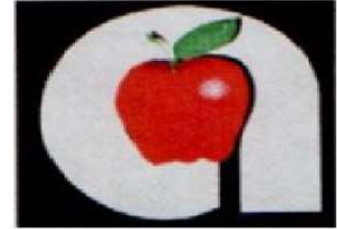

Today Ana Meyve brings to markets more than 8,000 tons of fresh cherries, 2,500 tons of pomegranates, 850 tons of figs, 2,500 tons of grapes, 10,000 tons of apples and 2000 tons of quinces each year.

ATLAS TARIM ÜRÜNLERİ İHRACAT A.Ş.

Agreco, an environmentally friendly company, places great importance on the health of its customers and only markets produce that is grown according to the principles of sustainable agriculture.

Agreco has the infrastructure necessary to supply fresh fruit and vegetables of the required quality and in keeping with standards of the importing country.

Agreco technically monitors the produce it exports from sowing to harvesting and has been awarded the EurepGAP certificate, which places the utmost importance on public health.

Agreco, by remaining true to these principles and by recognising the importance the environment and of public health, has been awarded the EurepGAP certificate (which is committed to sustainable agriculture) for fresh vegetables every year since 2003 and for fresh fruit every year since 2005.

Agreco has 50 producers of fresh vegetables with 100 hectares certified by EurepGAP and 15 producers of fresh fruit (apricots and pomegranates) with 120 hectares certified by EurepGAP. The production practices at these farms are periodically inspected and recorded by an authorised agricultural engineer.

Agreco, with its integrated production system, planning and research and development work, it is doing everything necessary to become a worldwide trademark.

Agreco is at present exporting fruit such as apricots, quince, peaches, pomegranates, grapes and oranges and the main glasshouse vegetables (such as Hungarian pepper, capia pepper, vine tomatoes and cocktail tomatoes) mainly to European Union countries.

Agreco supplies all the fruit and vegetables for the Turkish branches of the supermarket chain Tesco-Kipa. Agreco has its headquarters in Kumluca with a 2500m² covered facility and a cold storage depot with a 500 ton capacity. It is capable of processing 5000 tons of fresh vegetables a year.

Agreco has a second facility in Malatya's 2nd Organised Industrial Estate to process fresh apricots for export. It consists of 1,800 m² cover facility built on a 14,000 m² site. It contains a 500 ton capacity cold storage depot. In the fresh apricot season (July and August) it can process 1,000 tons of apricots.

Agreco cordially invites all interested parties to avail of our hospitality in Turkey's tourism capital Antalya, where we can get to know each other better.

'AGRECO' and 'MEYSEB' are the registered trademarks of Atlas Tarım Ürünler İhracat A.Ş.

DILBAZ EXP. IMP. & MARKETING LTD.

DILBAZ Exp. Imp. & Marketing Ltd. Company was established in 1993 in Antalya.

In 2000 DILBAZ invested in a new production plant in Denizli/Kaklik. For the production of sweet cherries, Sultana Grapes (of the mountains) and pomegranates this region proved as very efficient because of the fact that the cultivable area of these products is just close to Kaklik.

Another plant is located in Bursa. It is the production plant where fresh figs, various kinds of pepper such as Capia, Chili, Sivri, Charlie and Dolma (seasonally also in Antalya), peaches, pears, melons, plums and quinces, which are grown in Bursa. In Malatya, the city where apricots "Sekerpare", also known as "children apricots" are cultivated, there the fourth boxing station is located. Hence DILBAZ is endeavored to hold immediate proximity to the growing area to minimize ecological consequences such as high exhaust emissions by shorter transportation routes and to ensure the freshness of products.

DILBAZ obtains its merchandise only from contractual producers that are supported and supervised by corporate agricultural engineer, particularly during treatment of the goods.

Our high quality that emerges from sustainable production of healthy fruits and vegetables observing ecological aspects is confirmed by the certification of all contractual producers and DILBAZ by GlobalGAP. Also different certification organizations are convinced about our food security and our know-how and appreciated us with certificates:

- ISO 9001:2008 (Quality- and Administration systems)
- ISO 22000:2005 (Management systems for food security)
- BRC (British Retail Consortium)
- GLOBALGAP (Good agricultural practice standards)

GÖKSU GLOBAL GIDA İTH. İHR. SAN. VE TİC. A.Ş.

Göksu Global started our activities in 2009 in order to produce for the food sector. Our company, which established our first brand "Bayramefendi Ottoman Coffee Shop" in 2011, has brought a national brand to our country that has reached the number of hundreds of franchise enterprises in 77 provinces today by providing "franchising consultancy" and "production procurement" services. Our team, which founded "Vili Pizza" for the franchise sector in order to evaluate the opportunities in the fast food industry, has finally released the "Bex Coffee & Chocolate" brand by combining its long-term design, R&D work and experience in the sector. Our facility, which we call Food Supplier, located in Antalya Organized Industrial Zone, is built on 14,000 m2 of land and has a production and storage area of 8,500 m2. Our company produces lemonade, coffee, beverage powders, cookies and chocolate. Our production facility has ISO 22000, ISO 9001, ISO 10002, Halal Food and IFS Global Markets Food 2 quality certificates. Our company, which has achieved a successful growth chart in the Turkish market with the knowledge gained in the production, planning, consulting, procurement, management and marketing processes, also provides production and supply services for chain brands outside the group. Our company is focused on the retail sector in Limmo, La Salvaje...

1. LIMMO LEMONADE: We are all using special lemon in our production process. We process the lemon in its entirety on our own developed machines. We also use the peel of the lemon during the squeezing, we have added a very high value to our product by including the limonene substance contained in the lemon peel and containing a high aroma in our Limmo lemonade. In this way, we get 3 times more vitamin C and Calcium than a regular squeezed lemon. The packets are 300 ml (360 Gr.) and contains only lemon and beet sugar. You must keep in the freezer, shelf life is 2 year...

Stevia Limmo Lemonade: STEVIA; Stevia plant, also called sugar grass, has been used as a natural sweetener in many countries for many years. Stevia, which is offered as an alternative to the use of sugar especially for people with conditions such as obesity and diabetes, is characterized as the plant of the future. Considering our consumers who have obesity and diabetes, we have produced 0 calorie Stevia Limmo Lemonade.

LEMON JUICE: The benefits of lemon juice are endless...It is good for respiratory problems, prevents indigestion, reduces fever, provides dental care, relieves burns, protects skin health...Now we have frozen our vitamin C store lemon juices in packages by squeezing them in completely natural ways with no additives, preservatives, colorants. 200 ml, suitable for individual consumption. Also 10 lt for doypack and out-of-home consumption. We have packages available.

Lemon Spice: Lemon spice has benefits such as cleansing the liver, strengthening capillaries, curing ear infections, improving blood circulation, reducing nosebleeds, preventing strokes. So we grind the lemon after drying and pack it. You can flavor lemon spice with citrus aroma by using it in teas, bakery products, salads, soups, meat, fish, spice mixtures, pickles. It is also a great addition to brewed oils, can be mixed in butter and homemade cleaning or personal care products.

2. LA SALVAJE COLD BREW COFFEE 250 ML. BOTTLE: La Salvaje We are producing with this brand, Espresso, Filter Coffee and Cold Brew Coffee...Specially I would like to tell for Cold Brew Coffee, we are brewing the coffee in a cool water for 18 hours than bottled and pasteurized it has 18 months shelf life...

MVSTARIM HAYVANCILIK GIDA TURZ. İNŞ. SAN. VE TİC. LTD. ŞTİ

Turkey's Expert Apple Grower & Exporter

MVS, a branch company of Gülbudak in its 25th year in fruit growing sector, is Turkey's expert apple grower and exporter. We grow high quality Turkish apples in the South of Turkey, Isparta; process the products in dynamic atmosphere cold rooms having 17.000 capacity of storage and packing facility, and finally present them to domestic chain markets and more than 15 countries. Having the principles of progress, technological integration and respect for nature, MVS offers unique aromatic apples from Turkey to all around the world by having the production capacity of 30.000 tons/year.

We grow special apples in terms of aroma thanks to the mountains around, the rich sunlight hours it receives throughout the year and also the slope of the orchard lands which are planted over 650 ha area. Starting from Gala in August, other varieties as Golden, Red Delicious, Fuji, Granny Smith are available until July. Main export locations of MVS are as follows: India, Sri Lanka, Kenya, Rwanda, Ethiopia, Russia.

SMS ERSANLAR TAR.MAD. GIDA SAN. VE TİC. LTD.ŞTİ

We started the first cultivated mushroom production in our region with the compost we prepared in 1987. In our factory in Korkuteli district, 60 km from Antalya; There is a compost preparation platform, pasteurized compost, mushroom production rooms, brine and canning facility. In these facilities, compost, mushroom and brine canned food production continues. Currently, our export is made to the TRNC.
