# **1. ¿Why doing business in Ecuador?**

---

# Strategic Location

---

Ecuador has a direct access to the Ocean Pacific which represents great benefits for the shipping companies. These businesses benefit from saving time and resources.

Moreover, international trade is governed by the ECUAPASS system which guarantees the importation and exportation of goods with efficiency

Ecuador has 21 airports, some of them recently opened.

---

# Economic Growth

---

- Ecuadorian economy has grown significantly in recent years, having a superior index of development in comparison with its neighbour states.
  - Between 2007 and 2013, Ecuador's economy reached an average growth of 1.5 points (from a 3.4% to 5.1%) considering its gross domestic product.
-

# CURRENCY

---

The USD is the official currency in Ecuador, which represents some benefits for investors.

Now a days, Ecuador is attempting a new type of money called: electronic currency.

---

# Electricity:

Ecuador is currently building some hydroelectric and in the future is expected that it will be selling its energy to other states, such as: Colombia, Peru, etc.

# Investment and production incentives

---

In 2011, the Ecuadorian National Assembly enacted the Organic Code for Production and Investments. Within its provisions national and foreign investors are encouraged to invest in new sectors such as: “Zonas Deprimidas”, ZEDES, Investment Contracts, etc.

The Ecuadorian government provides new benefits, incentives and protections in order to attract foreign and national investment in the locations where economic growth has had a low level.

---

# Main features

---
